HISTORY OF IRP

- 1985** Super Cooler (the predecessor to IRP) begins production of the original keg cooler in a building constructed on the founder/CEO's home property.
- 1986** Company name changes and becomes incorporated as Iowa Rotocast Plastics, Inc. and moves to new 4,000 sq ft location in Decorah, IA.
- 1994** The Arctic is born and sold to Coca-Cola. Kolor Graphics is created as an in-house printer to fulfill the growing demands.
- 1998** IRP moves to current location in Decorah, IA and constructs 20,000 sq ft production facility.
- 2006** Several additions totaling over 100,000 additional sq ft – fabrication line developed to satisfy increasing demand for fabricated carts and kiosks. A third rotational molding oven is added to the second IRP location - a large capacity oven.
- 2009** IRP adds a 60,000 sq ft second physical location.
- 2012** Grizzly Coolers is launched as the re-branded image of roto-molded coolers manufactured by IRP taking a more B2C-focused position in the market.
- 2016** IRP adds a powder coating line to the second IRP location. A fourth rotational molding oven is added to the main IRP location - a high volume oven.
- 2017** IRP is awarded the US Bank Stadium bid in Minneapolis, MN, launching a series of stadium and venue books of business to follow.
- 2019** IRP introduces an ACM line of fabricated carts for more cost effective construction. IRP is also awarded Wrigley Field and Allianz Field stadium bids.
- 2020** In response to Covid-19, IRP developed a line of hand sanitizers to promote health and safety. Nashville Soccer and Cincinnati Soccer stadiums both award fabrication bids to IRP.
- TODAY** Launched re-branded e-commerce website and constructed new staging area in our fabrication facility. Company restructures to allow for the next generation of family members to take on executive leadership roles.

Iowa Rotocast Plastics, incorporated in 1986, is an established manufacturer and supplier of merchandising equipment for the food and beverage industry. IRP caters to beverage brands and food-service and hospitality groups, as well as working directly with stadiums, venues, and arenas to fulfill year-over-year needs.

The IRP family of brands is divided into three main product categories: RotoTough™ products that include ice-down merchandising solutions and case stackers; wire racks and electronic refrigeration; and IRP's fabricated food & beverage equipment built for on/off premise. IRP equipment meets or exceeds required industry regulations and is NSF and UL approved.

NEW

- 20 - quarts

A Yuengling beer kiosk is the central focus, featuring a large sign with the brand name in a cursive font. A glass of beer is visible on the kiosk's counter. The background shows a modern building with a blue staircase and a white wall with a '1L' sign. The entire image is overlaid with a dark, semi-transparent filter.
